

2nd IPAF Conference Invitation

Theme: Healthcare Reform

Re-engineer Healthcare to deliver the Accessible, Quality and Cost Efficient Healthcare

Date: 19th May 2017

Venue: Elangeni Conference Centre

The 2016 IPAF Inaugural Conference was a huge success.

This year the Conference will be on the 19th May 2017 at the Elangeni Conference Centre. It will be from 13h00 to 17h00 and will precede the KZNDHC Conference which starts at 19h00 – 20h00.

Healthcare solutions are the product of all role players in South Africa. The Private Sector is frowned upon as being inefficient, expensive, driven by a profit motive. However it is a sector that is trying to make a difference. It is committed to make necessary changes to fulfil the right to Healthcare for all South Africans whilst preserving the Private sector and its expertise in technology, business, and medicolegal aspects, as an asset to the nation.

At the 2016 Conference your presence was integral to the success of IPAF during the year and an important eye opener to the Industry. The State controlled top down strategy is unacceptable and will not be acceptable in a country built on democratic and free market principles.

IPAF sincerely hopes that you will accept this invitation and complete the [registration form](#).

We will hear from Funders, Doctors, Government, Council of Medical Schemes, Pharma Companies and Allied Professionals. We would like to be the leaders who debate the challenges that the Healthcare delivery has to deal with daily. We need to find solutions together and plan for the future.

Everyone in the business of Healthcare should attend. It is our hope that this will be a meeting of visionary leaders and we will need to share this with the patients and Government that their concerns are our concerns.

See you on the 19th May 2017

Kind Regards,

Prof MN Chetty

Dr Tony Behrman
