www.ipafoundation.co.za

14th November is World Diabetes Day.

IPAF and its constituent IPA's would like to engage in a National Screening Program. We would like as many doctors to engage in this Primary Care Initiative. Please find attached a pack of documents to guide the process and document your findings.

Please confirm your participation via email to sonette@ipafoundation.co.za or via phone on 012-348 7611.

Please contact Dr P Ramlachan on 083-555 1613 or on drprithy@newkwa.co.za for more information.

Please find here under an outline as to what the pack contains:

Document A

Advert of World Diabetes Day and request for all Family Practitioners to commit to screening of our patients for Diabetes.

Document B

IPAF's commitment and report to its constituent groups.

Document C + Document D

Guidelines to complete the questionnaire E.

Document E

The data capture form

NOTE

1. Please obtain Informed Consent
2. Screen and risk stratify
3. Finger Prick – random blood sugar
4. Those who have access to arranging HbA1c tests, please follow guidelines.

For more information, kindly contact Dr P Ramlachan
